EDUCATION

The University of Texas at El Paso

Bachelor of Science in Computer Science, Minor Mathematics

Anticipated Graduation: Dec 2025

GPA: 3.6

Relevant coursework: Applied Data Structures, Discrete Math, Discrete Structures, Matrix Algebra, Calculus III, Data Structures, Machine Learning, Decision Making in AI, Modern AI, Automata, and Computer Architecture.

Technical Skills: Fluent with Java, Python, C, C++, and GIT. Experience with Lua, PHP, React, JavaScript, CSS, HTML, Scikit Learn, and TensorFlow.

EXPERIENCE

Software Engineering Intern

Visa

May 2025 – Aug 2025

Austin, TX

- Developed REST APIs in Java/Spring to power an AI orchestration engine, reducing manual workflow execution time from ~5 minutes to under 1 minute.
- Built a dynamic workflow builder with LangChain4j and LangGraph4j that constructed multi-agent pipelines at runtime using JSON-path-based configuration, improving scalability and accuracy of automated decision flows.
- Designed agent communication and data-passing architecture that automated I/O mapping and orchestration between agents, minimizing integration overhead and ensuring reliable JSON responses.

Google Tech Exchange

Google

Jan 2024 – May 2024

Mountain View, CA

- Applied data structures and algorithms to solve complex problems, improving problem-solving abilities. Successfully completed 4 coding challenges on Code Signal with an 85% accuracy.
- Networked with a cohort of 180+ peers by stepping out of my group and forming connections with other students.

Undergraduate Teaching Assistant, Data Structures

The University of Texas at El Paso

Jan 2024 – May 2025

El Paso, TX

- Developed and delivered engaging supplementary workshops for a Data Structures and Algorithms course, resulting in a 10% increase in student test scores.
- Coordinated weekly office hours, guiding 40 students in debugging Java code and mastering data structures concepts.
- Implemented and utilized consistent grading rubrics for programming assignments in an Elementary Data Structures course, ensuring fair and accurate evaluation for 45 students.

HONORS AND ACTIVITY

- Dean's List Fall 2022, Spring 2023, Fall 2024
